- ❖ Featured with Intel UHD Graphics.
- ❖ support video conferencing on all platforms.
- ❖ compatible with Citrix and VMware.
- ❖ Vesa Mount Kit.

Powerful And Affordable Computing Solution

Alpha 312 is a compact and portable computer that provides high-performance computing solutions without compromising on performance. These devices are designed to be smaller in size compared to traditional desktop computers, making them ideal for space-constrained environments or individuals who value portability.

Alpha 312 typically come with powerful processors, ample RAM, and storage options, allowing them to handle demanding tasks such as multimedia editing and productivity applications. They often offer a wide range of connectivity options, including USB ports, HDMI, and Wi-Fi, enabling you to connect peripherals and accessories easily.

Alpha 312's compact size makes it suitable for environments with limited space, such as small offices, classrooms, or living rooms. They are also portable and easy to transport, allowing users to take their computing power wherever they go. Additionally, Alpha 312 consumes less power than larger desktop computers, making it energy-efficient and cost-effective.

Despite their smaller form factor, Alpha 312 can still have powerful hardware configurations, including multi-core processors, dedicated graphics cards, solid-state drives (SSDs), and a sufficient amount of RAM. Alpha 312 can be attached to the back of a monitor.

Broad USB Peripheral Support

Alpha 312 supports a broad variety of peripherals, including printers, scanners, smart card readers, web cameras, headphones, speakers, digital signatures, biometric fingerprint readers, mass fingerprint readers, mass storage devices, and others.

High-Speed Data Transfer

High-speed data transfer is a crucial requirement for many users, especially when dealing with large files or transferring data between devices. USB (Universal Serial Bus) ports are commonly used for data transfer, and USB 3.0 popular versions of this technology. Clientronix Alpha 312 featuring Four 3.0 USB Ports High-Speed data transfer.
